Experience pure joy

Innovative technology for private pools with the ultrafiltration system spaliQ:UF150

grünbeck

Ultrafiltration system spaliQ:UF150

Effective filter technology for pure swimming pleasures

Easy to use: user-friendly touch panel with convenient controller

Ultrafiltration system spaliQ:UF150 for private swimming pools and whirlpools

Excellent and pure water quality for private swimming pools thanks to the unique ultrafiltration system by Grünbeck

With water treated by Grünbeck, you are on the safe side.

The new ultrafiltration system spaliQ:UF150 pumps the water from the pool by means of a frequency-controlled pump. The unique ultrafiltration system by Grünbeck effectively retains dirt particles as well as viruses, bacteria and parasites, removes them and thus ensures hygienically pure water. Pure joy when swimming and relaxing at home is guaranteed.

Thanks to the special Grünbeck flushing process – patent pending – unnecessary system components are eliminated, which saves a lot of space and energy.

The ergonomic, modular system design with removable housing and divisible system rack makes installation and maintenance easy. Thanks to the user-friendly touch panel as indicator and operating unit, the control unit is convenient and easy to use. The spaliQ:UF150 is the trendsetter in innovative filter technology!

- 
Membrane cut-off of 0.02 µm
- 
99.99 % retention of viruses, bacteria and parasites (sand filter approx. 30 %)
- 
Unique filtrate and disinfection flushing

*Ultrafiltration system spaliQ:UF150
in modular design*

Additional advantages at a glance:

- Pre-assembled treatment technology
- Control/operation feasible via iPad
- Internal data logging
- Low chlorine consumption
- Constant capacity (frequency-controlled)
- Automatic integrity test, lowering of water level at night (optional)

Capacity and dimensions:

- Filter capacity 15 m³/h
- Width of filter system 1,500 mm
- Height of filter system 1,800 mm
- Depth of filter system 900 mm
- Minimum room height (foundation not included) 2,000 mm
